Main Office location: Natural Resources Building - 1111 Washington Street SE - Olympia, WA

ADDENDUM TO DETERMINATION OF NONSIGNIFICANCE
DATED: August 28, 1996, Final September 17, 1996

Name of DNS: TROUT LODGE GRAVEL REMOVAL AND CHANNEL CLEANOUT
MAINTENANCE PROJECT

Description of DNS: Project removed approximately 3,000 cubic yards of accumulated sediment from a gravel entrapment basin in Clear Creek, a tributary to the Puyallup River, now and lesser amounts as needed to insure water flow to fish ponds.

Proponent: Sound Engineering, 1019 Pacific Avenue, Suite 906, Tacoma, Washington 98402; for Trout Lodge. Contact Person: Eric Abbott.

Location of DNS, including street, if any: Trout Lodge, 4008 Pioneer Way, Tacoma, Washington, Pierce County; Section 13, Township 20 North, Range 03 East WM

Lead Agency: Washington Department of Fish and Wildlife

The lead agency is providing updated information on this project which may be of interest to other agencies or the public. The updated information provided below does not substantially change the analysis of significant impacts in the existing environmental checklist.

The original DNS and environmental checklist dated August 5, 1996, should be modified to reflect the following changes:

Description of Proposal: Change above description to "Remove approximately 3,000 cubic yards of accumulated sediment from a gravel entrapment basin in Clear Creek, a tributary to the Puyallup River, now, and up to 3,000 cubic yards as needed in the future to insure water flow to fish ponds.

The environmental checklist has been changed to add the underlined text:

#10. Background Information: Description of proposal and uses: Remove gravel from catch basin as and when needed to insure water flow into fish ponds. [Add] Up to approximately 3,000 cubic yards may be removed. To use removed gravel on property away from stream, and/or to sell or give to anyone with proper permits.

#3 Water (a) Surface #3. 2,500-3,000 yards will be removed [Add] as needed from settling basin and placed on property around new ponds and away from streambed.

Based on the original environmental checklist and the updated information provided in this addendum, the lead agency has determined that a new threshold determination is not warranted. There is no comment period associated with this SEPA environmental checklist addendum.

Responsible Official: Cynthia R. Pratt

Position/Title: SEPA/NEPA Coordinator, Regulatory Services Section
